

Minebea Products in Society

The ball bearings, motors, and electronic devices that we manufacture are incorporated in a wide range of final products, improving the lives of people around the world, and helping to bring about a richer society. Although our products are not normally visible to consumers, this page will introduce the role they play in society.

Machined components

● Products

Ball bearings, rod end & spherical bearings, roller bearings, fasteners, pivot assemblies, precision machined components

● Product applications

Personal computers, hard disc drives, information and telecommunications equipment, OA equipment, consumer electronics, audio-visual equipment, ATMs, automobiles, aircraft

Rotary components

● Products

Hard disc drive spindle motors, small precision motors, stepping motors, brushless motors, fan motors

● Product applications

Personal computers, hard disc drives, information and telecommunications equipment, OA equipment, consumer electronics, mobile phones, audiovisual equipment, mobile phone communication base stations, industrial machinery, automobiles

Electronic devices and components

● **Products**

Lighting devices for small liquid crystal displays, color wheels, backlight inverters, various measuring components, heat management system module (HMSM), next-generation input devices

● **Product applications**

Personal computers, digital cameras, mobile phones, smartphones, portable music players, projectors, measuring equipment, automobiles, space rockets, service robots

Others

● **Products**

Speakers, special components

● **Product applications**

Personal computers, speakers, audio-visual equipment, industrial equipment, defense equipment
