

# Minebea Products in Society

The ball bearings, motors, and electronic devices that we manufacture are incorporated in a wide range of final products, improving the lives of people around the world, and helping to bring about a richer society.

Although our products are not normally visible to consumers, this page will introduce the role they play in society.

## Machined Components

### • Products

Ball bearings, rod end & spherical bearings, roller bearings, fasteners, pivot assemblies, precision machined components

### • Product applications

Personal computers, hard disc drives, printers, information and telecommunications equipment, OA equipment, consumer electronics, ATMs, automobiles, aircraft

## Electronic Devices and Components

### • Products

Hard disc drive spindle motors, small precision motors, stepping motors, brushless motors, fan motors

### • Product applications

Personal computers, servers, hard disc drives, printers, information and telecommunications equipment, OA equipment, consumer electronics, audio-visual equipment, mobile phone base stations, industrial machinery, automobiles

#### • Products

Lighting devices for liquid crystal displays, measuring components, fan units, LED lighting equipment

#### • Product applications

Personal computers, digital cameras, mobile phones, smartphones, portable music players, projectors, measuring devices, automobiles, space rockets, lighting equipment

#### • Products

Special components

#### • Product applications

Industrial machinery, defense equipment, automobiles
