

CSR and Environmental Activities

Our employees, customers, shareholders, suppliers, communities as well as every individual living on this planet are all vital stakeholders in the Minebea Group. We are continually cultivating open channels of communication with our stakeholders to yield fruitful relationships that will enable us to grow together as we work toward creating a more sustainable way of life.

In 1993 Minebea became the first bearing manufacturer to abolish the use of specific chlorofluorocarbons and ethane as cleaning agents in its production processes. That was also the year Minebea articulated its Environmental Philosophy and Environmental Policy. These corporate milestones focused on various environmental initiatives, such as eliminating or minimizing the use of environmentally hazardous substances,

implementing environmental management systems, promoting efficient use of resources as well as green procurement practices.

In addition to these initiatives, we adopted the Minebea Group Basic CSR Policy and the Minebea Group's CSR Implementation Principles in 2010 based on our Five Basic Management Principles (see page 6). Today Minebea's CSR activities encompass a wide range of areas including educational programs, participation in local and national initiatives, promotion of amateur sports, and more. We are deeply committed to engaging in community-based CSR activities at our locations around the world with an eye to building bridges that will connect us with our stakeholders and ensure open access to everyone.
