

MinebeaMitsumi

Passion to Create Value through Difference

Our Electro Mechanics Solutions™*, that integrate control technology with machine and electronic technology, make MinebeaMitsumi a one of a kind manufacturer. We create new value through difference by combining ultra-precision machining technologies such as bearings and motors, sensors, semiconductors and wireless technologies. This allows us to expand the realm of possibility by creating innovative products. We are accelerating the development of solutions that contribute to a fully connected IoT society, as seen in Industry 4.0, smart cities, advanced healthcare, and next generation technologies including automated driving and robotics.

Disclaimer Regarding Future Projections

In this annual report, all statements that are not historical facts are future projections made based on certain assumptions and our management's judgement drawn from currently available information. Accordingly, when evaluating our performance or value as a going concern, these projections should not be relied on entirely. Please note that actual performance may vary significantly from any particular projection, owing to various factors, including: (i) changes in economic indicators surrounding us, or in demand trends; (ii) fluctuation of foreign exchange rates or interest rates; and (iii) our ability to continue R&D, manufacturing and marketing in a timely manner in the electronics business sector, where technological innovations are rapid and new products are launched continuously. Please note, however, this is not a complete list of the factors affecting actual performance.
