

Corporate entities today must respond to public demand for information on their environmental protection efforts and achievements. Minebea provides extensive information to the public via its web site and its annual environmental report. Minebea also actively solicits the views of its employees regarding its environmental activities.

Information on Environmental Efforts on the Minebea Web Site

The Minebea web site features information on current environmental protection efforts, as well as Minebea's Environmental Protection Principle and a history of efforts to date.

For inquiries and comments on Minebea's environmental efforts, please see the back cover of this report.

Publication of the Minebea Group Environmental Report

In recent years, companies have come under increasing pressure to disclose information on their efforts to incorporate environmental protection efforts into their business activities. In 2003, Minebea published its first annual Group environmental report.

To ensure that future editions of its environmental report are as useful and informative as possible, Minebea includes a brief questionnaire for readers in each copy of the report.

◎ **Summer Night Festival (Fujisawa Plant)**

The Fujisawa Plant organizes an annual summer night festival to which it also invites members of the community. This event enables the plant to promote effective communication with local residents.

The Fujisawa Plant's summer night festival features a wide range of entertainment and activities for local residents

◎ **Plant Tour (Lop Buri Plant, Thailand)**

The Lop Buri Plant in Thailand invites students of the Lop Buri College of the Dramatic Arts and the Rajabhat Tepsatri Institute for a tour organized around the theme of environmental preservation. The tour includes learning about measures the plant is taking to minimize emissions, as well as seeing its wastewater and waste management facilities. The plant's aim is to enhance awareness of environmental concerns and promote concrete measures for addressing key issues.
