

Minebea Products in Society

The ball bearings, motors, and electronic devices that we manufacture are incorporated in a wide range of final products, improving the lives of people around the world, and helping to bring about a richer society. Although our products are not normally in view, this page will introduce the roles they play in society.

Machined components

Products

Ball bearings, rod end & spherical bearings, roller bearings, fasteners, pivot assemblies, precision machined components

Product applications

Personal computers, hard disc drives, information and telecommunications equipment, OA equipment, consumer electronics, audio-visual equipment, ATMs, automobiles, aircrafts

Rotary components

Products

Hard disc drive spindle motors, small precision motors, stepping motors, brushless motors, fan motors

Product applications

Personal computers, hard disc drives, information and telecommunications equipment, OA equipment, consumer electronics, mobile phones, audio-visual equipment, mobile phone communication base stations, industrial machinery, automobiles

Electronic devices and components

■ Products

Lighting devices for liquid crystal displays, color wheels, backlight inverters, various measuring components, HMSM (heat management system module), next-generation input devices

■ Product applications

Personal computers, digital cameras, mobile phones, smart phones, portable music players, projectors, measuring equipment, automobiles, space rockets, service robots

Others

■ Products

Personal computer keyboards, speakers, special components

■ Product applications

Personal computers, speakers, audio-visual equipment, industrial equipment, defense equipment
