

Minebea Products in Society

The ball bearings, motors, and electronic devices that we manufacture are incorporated in a wide range of final products, improving the lives of people around the world, and helping to bring about a richer society. Although our products are not normally visible to consumers, this page will introduce the role they play in society.

Machined components

● Products

Ball bearings, rod end & spherical bearings, roller bearings, fasteners, pivot assemblies, precision machined components

● Product applications

Personal computers, hard disc drives, information and telecommunications equipment, OA equipment, consumer electronics, audio-visual equipment, ATMs, automobiles, aircraft

Electronic devices and components

● Products

Hard disc drive spindle motors, small precision motors, stepping motors, brushless motors, fan motors

● Product applications

Personal computers, hard disc drives, information and telecommunications equipment, OA equipment, consumer electronics, audio-visual equipment, mobile phone communication base stations, industrial machinery, automobiles

● Products

Lighting devices for liquid crystal displays, measuring components, heat management system modules (HMSM), next-generation input devices, LED drivers

● Product applications

Personal computers, digital cameras, mobile phones, smartphones, portable music players, projectors, measuring equipment, automobiles, space rockets, lighting equipment

● Products

Special components

● Product applications

Industrial machinery, defense equipment, automobiles
