

Minebea Group CSR

Basic Approach

The Minebea Group believes that enterprises have a mission to contribute to the sustainable development of the global environment and of humanity, not only through strict adherence to laws and regulations, but also through fair and proper management of our business in accordance with business ethics. To achieve this mission, we have established the “Five Principles” as our basic management policy, and on the basis of this policy, formulated the Minebea Group Basic CSR Policy and the Minebea Group’s CSR Implementation Principles to guide our CSR activities. Additionally, in January 2012 we announced our participation in the UN Global Compact, a set of

universal principles advocated by the United Nations to promote protection of human rights, elimination of unfair labor practices, protection of the environment, and anti-corruption.

Minebea Group Stakeholders

Our major stakeholders are defined as employees, customers, shareholders, local communities, and global society, which are affirmed in the “Five Principles,” as well as suppliers and the environment that supports our society. In carrying out CSR activities, the Group believes that it is essential to maintain communication with each stakeholder group and meet their expectations.

The Five Principles

- ◉ Be a company where our employees are proud to work
- ◉ Earn and preserve the trust of our valued customers
- ◉ Respond to our shareholders’ expectations
- ◉ Work in harmony with the local community
- ◉ Promote and contribute to global society

We will put forth goals to be achieved, based on understanding the Minebea Group’s social responsibilities and the key problems that need to be addressed, and continue to improve our CSR activities through implementation and continual review. We will also strive to raise awareness of CSR among all employees through CSR activities.

3 Dialogue with stakeholders

Constructive dialogue with stakeholders (employees, customers, shareholders, local communities, global society, suppliers, and the environment) allows us to meet expectations and respond to requests, and we will improve transparency and accountability in our corporate activities.
