Editorial Policy

We publish the MinebeaMitsumi Group CSR Report annually as a way to inform our stakeholders of our Group's CSR approach and initiatives.

In the report for FY2017, we present special features highlighting examples of communications with the local communities where we conduct business. The example from Japan concerns a stakeholder dialogue conducted at the Mitsumi Electric Chitose Business Division with the participation of local residents. The examples from overseas are CSR programs in Thailand with deep community ties and the current status of initiatives at the Cambodia Plant, which has grown in tandem with its employees.

We also continue to share the progress of our specific CSR initiatives in the pages of our "Management Report," "Social Report," and "Environmental Report" sections.

We consider the publication of the CSR Report to be an important means of communication with stakeholders, and in keeping with this approach, we have endeavored to make the contents relevant and clear. We always appreciate receiving forthright opinions and feedback regarding the Group's CSR activities from our readers. Starting this year, we will also issue a separate integrated report. For information on financial results, governance, and other topics, refer to the MinebeaMitsumi Group Integrated Report 2018.
